

CAMPAIGN CONCEPTS

# DJI Osmo 360 × Callie Rounds

Three ideas built for a camera that sees in every direction

IDEA 01

LOCATION · BOITUVA, BRAZIL

## Helicopter Skydiving in Brazil

THE CONCEPT

Lift off in a helicopter from Boituva, climbing over the deep green of the Brazilian jungle as it unfolds in every direction. Reach altitude over endless canopy, then step out into open air for a full skydive descent. Osmo 360 in hand the whole way, every direction captured from a single mount.

IDEA 02

LOCATION · ÖLÜDENİZ, TURKEY

# Paramotor Skydiving in the Mediterranean

## THE CONCEPT

Launch a paramotor off Babadağ Mountain into the Turkish Mediterranean sky, one of the world's top three free-flight destinations. At altitude, separate from the wing for a free skydive descent back to the coast at Ölüdeniz. Osmo 360 in hand to capture it all.

IDEA 03

LOCATION · BOITUVA, BRAZIL

# Hot Air Balloon Skydiving in Boituva

## THE CONCEPT

Stepping off of a hot air balloon into free fall above a sea of clouds over Boituva, Brazil. An environment the Osmo 360 was built for.

OPEN TO ADJUSTMENT

If three skydive adjacent concepts feels too narrow, happy to swap out any of these ideas for other extreme sport concepts, including but not limited to:

- Rock climbing
- Cliff jumping
- Bungee jumping
- Surfing
- Multi-day hiking
- Or a hybrid concept built around several

Happy to build this around what your team aims to capture.

Excited to build this one with you

Please let me know your thoughts. Excited to explore another meaningful partnership together.
